ARCADÉ FIGHTSTICK™ PRO

Thank you for purchasing the Mad Catz FightStick™ PRO for use with the PlayStation3 video game system. **Do not use this product online at www.madcatz.com and check out our full line of other quality video game accessories.**

IMPORTANT! Before using the PlayStation3 with this product, read the PlayStation3 instruction manual for safety, health, and other information regarding the use of the PlayStation3.

3-Way Switch

The "FightStick" is equipped with a 3-way switch labeled "LS," "DP" and "RS," which allows the Control Stick to emulate either the left or right analog stick of a standard controller. Set the switch to the desired location to make use of this feature.

Turbo Button Usage

NOTE: The action buttons to which the turbo feature can be assigned are square, triangle, circle, X, L1, R1, and R2.

NOTE: The Control Module on the "FightStick" contains eight (8) individual turbo LEDs which correspond with programmable action buttons. Once an action button has been properly programmed, the corresponding turbo LED will remain illuminated during gameplay.

Press and hold the "TURBO" button. Once the "TURBO" button has been depressed, you will see a five- (5) second window to begin the programming process below:

1. While continuing to hold down the "TURBO" button, press the action button you want to assign turbo to.
 - a. One (1) time for fast turbo speed – the turbo LED will flash rapidly.
 - b. Two (2) times for slow turbo speed – the turbo LED will flash slowly.
 - c. Three (3) times for fastest turbo speed – the turbo LED will flash rapidly.
2. To assign turbo to other action buttons, repeat steps one (1) above.
3. Once turbo has been assigned to the desired action button(s), release the "TURBO" button to complete the process.

NOTE: The controller's turbo LED will remain illuminated during gameplay if an action button(s) which is currently being programmed. If the setup procedure has not been properly completed, the turbo LED will not illuminate and the procedure must be retried.

Turbo Cancellation
NOTE: If the controller is unplugged from the console, or loses its wireless connection or is powered OFF (wireless), all turbo functionality will be cancelled.

There are two (2) different cancellation methods, individual action buttons and all action buttons:

1. Press and hold the "TURBO" button. Once the "TURBO" button has been depressed, you will see a five- (5) second window to begin the programming process below:
2. To assign turbo to other action buttons, repeat steps one (1) above.
3. Once turbo has been assigned to the desired action button(s), release the "TURBO" button to complete the process.

NOTE: The controller's turbo LED will remain illuminated during gameplay if an action button(s) which is currently being programmed. If the setup procedure has not been properly completed, the turbo LED will not illuminate and the procedure must be retried.

SEIZURES
Some individuals may have seizures or black outs triggered by the flashing lights on television or in video games. **NOTE:** If you have ever had a seizure, do not use this product. If you have ever had a seizure, do not use this product. If you have ever had a seizure, do not use this product.

Individual action buttons:
1. Press and hold the "TURBO" button. Once the "TURBO" button has been depressed, you will see a five- (5) second window to begin the programming process below:

All action buttons:
1. Press and hold the "TURBO" button for five (5) seconds without depressing any programmable action buttons.

FAQ:
Q: How do I deactivate the turbo settings?
A: There are two (2) ways to cancel out the turbo feature. By holding down the Turbo Activation Button for 5 seconds, the LED will flash rapidly. All turbo settings will be cancelled. You can also unplug the "FightStick" from the console. All turbo settings will be cleared after plugging it back into the console.

Q: My "FightStick" is not being recognized by the PS3 console. What should I do?
A: Ensure the USB cable is properly firmly into the controller port on the PS3 console.

Q: Why can't I get the "TURBO" or Home button to function?
A: Ensure the LOCK/Unlock switch is unlocked so you have access to the features on the Control Module.

Q: The Control Stick doesn't function as left when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the left analog stick "LS" or D-Pad "DP" setting.

Q: The Control Stick doesn't function as right when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the right analog stick "RS" or D-Pad "DP" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

United Kingdom telephone (UK), available Monday through Friday (excluding bank holidays): +44(0) 1633 88110.

CAUTIONS!
Use this unit only as intended.
- To prevent fire or shock hazard, do not expose this unit to rain or moisture. Do not use within 30' of any water such as swimming pools, bathtubs, or sinks.
- To avoid electrical shock, do not disassemble. Refer servicing to qualified personnel only.
- Never pull objects of any kind, other than authorized items, into the product as they may reach dangerous voltage points or short out parts that could result in fire or electrical shock.
- Stop using this unit immediately if you begin to feel heat or experience discomfort or pain in the neck, shoulder, or other areas of the body. If the condition persists, consult a doctor.
- Do not attempt to operate the unit in any way except with your hands. Do not bring the unit in contact with your face, hair, neck, or other parts of your body.
- Avoid prolonged use of this unit. Take breaks every 30 minutes.
- Do not use this unit for extended periods of time. Do not use for extended periods of time.
- Do not place in position or areas where they may become pinned or damaged.
- Do not use for extended periods of time.
- Do not allow children to play with cords.

SEIZURES
Some individuals may have seizures or black outs triggered by the flashing lights on television or in video games. **NOTE:** If you have ever had a seizure, do not use this product. If you have ever had a seizure, do not use this product. If you have ever had a seizure, do not use this product.

Individual action buttons:
1. Press and hold the "TURBO" button. Once the "TURBO" button has been depressed, you will see a five- (5) second window to begin the programming process below:

All action buttons:
1. Press and hold the "TURBO" button for five (5) seconds without depressing any programmable action buttons.

FAQ:
Q: How do I deactivate the turbo settings?
A: There are two (2) ways to cancel out the turbo feature. By holding down the Turbo Activation Button for 5 seconds, the LED will flash rapidly. All turbo settings will be cancelled. You can also unplug the "FightStick" from the console. All turbo settings will be cleared after plugging it back into the console.

Q: My "FightStick" is not being recognized by the PS3 console. What should I do?
A: Ensure the USB cable is properly firmly into the controller port on the PS3 console.

Q: Why can't I get the "TURBO" or Home button to function?
A: Ensure the LOCK/Unlock switch is unlocked so you have access to the features on the Control Module.

Q: The Control Stick doesn't function as left when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the left analog stick "LS" or D-Pad "DP" setting.

Q: The Control Stick doesn't function as right when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the right analog stick "RS" or D-Pad "DP" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-Pad "DP" setting.

Q: The Control Stick doesn't function as Right Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Right Analog Stick "RS" setting.

Q: The Control Stick doesn't function as Left Analog Stick when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the Left Analog Stick "LS" setting.

Q: The Control Stick doesn't function as D-Pad when I'm ingaming. Why is that?
A: Ensure the Control Stick Switch is set to either the D-P
